1. TWIRL - DAY

68-year-old Harriet Smith sits with two wrinkled hands firmly on the wheel of her rust-eaten Subaru wagon, staring straight ahead through the top level of bifocals as she waits serenely at a red light.

Harriet is alone in the car. To her right is another vehicle, also waiting, in this case to make a right turn; it's a sleek, low-slung, black Camaro.

We are inside the cabin with Harriet. The Subaru's sound system softly plays choral music. Harriet's lips move slightly as she internally sings along, mouthing a slow aria. Her head weaves slightly side to side, in the rhythm with the music.

Things are calm as can be here inside the car with Harriet. There are a pair of well-worn Bibles on the empty passenger seat beside her, one with a gold-lettered 'Harriet' on its leather front cover, the other with a matching 'Joseph' on its front cover.

Harriet's eyes swivel up to the light: still red. We wait with her.

Suddenly there is a piercing SCREECH outside. Harriet jerks her head to the right and we follow her line of sight.

A sleek motorcycle has swerved out of its lane and is now streaking straight for the right side of the Camaro beside Harriet's car.

The bike slams with CLANG into the side of the Camaro. Its rider is flung up and forward into the air, twirling passed Harriet's windshield.

We now watch from Harriet's POV, in slow motion. The black-leather-clad motorcyclist sails by Harriet's windshield, airborne. We see a man's face, clearly: His elephant-hide skin tells us that he is well beyond middle-age. Yet thick, black curls of youthful hair emerge from under his helmet. The rider has only one half of a black, bushy, swept-out, waxed mustache. His eyes are weary and grey, and appear to lock with Harriet's for an instant.

We return to normal speed. The body is now lying on the incoming lane to the left of Harriet's Subaru, perfectly still on the blacktop, the head twisted into an impossible angle. Blood seeps from a nostril. Beside the lifeless head, a BMW medallion lies on the pavement, glinting in the sunlight.

Other AI-&-God Stuff ...

Benzmüller-Scott-Gödel

A1 Either a property or its negation is positive, but not both:

$$\forall \phi [P(\neg \phi) \equiv \neg P(\phi)]$$

A2 A property necessarily implied by a positive property is positive:

$$\forall \phi \forall \psi [(P(\phi) \wedge \Box \forall x [\phi(x) \supset \psi(x)]) \supset P(\psi)]$$

T1 Positive properties are possibly exemplified:

$$\forall \phi [P(\phi) \supset \Diamond \exists x \phi(x)]$$

D1 A *God-like* being possesses all positive properties:

$$G(x) \equiv \forall \phi [P(\phi) \supset \phi(x)]$$

A3 The property of being God-like is positive:

$$P(G)$$

C Possibly, God exists:

$$\Diamond \exists x G(x)$$

A4 Positive properties are necessarily positive:

$$\forall \phi [P(\phi) \supset \Box P(\phi)]$$

D2 An *essence* of an individual is a property possessed by it and necessarily implying any of its properties:

$$\phi \text{ ess. } x \equiv \phi(x) \wedge \forall \psi (\psi(x) \supset \Box \forall y (\phi(y) \supset \psi(y)))$$

T2 Being God-like is an essence of any God-like being:

$$\forall x [G(x) \supset G \text{ ess. } x]$$

D3 *Necessary existence* of an individ. is the necessary exemplification of all its essences:

$$NE(x) \equiv \forall \phi [\phi \text{ ess. } x \supset \Box \exists y \phi(y)]$$

A5 Necessary existence is a positive property:

$$P(NE)$$

T3 Necessarily, God exists:

$$\Box \exists x G(x)$$

Benzmüller-Scott-Gödel

- A1 Either a property or its negation is positive, but not both:

$$\forall \phi [P(\neg \phi) \equiv \neg P(\phi)]$$
- A2 A property necessarily implied by a positive property is positive:

$$\forall \phi \forall \psi [(P(\phi) \wedge \Box \forall x [\phi(x) \supset \psi(x)]) \supset P(\psi)]$$
- T1 Positive properties are possibly exemplified:

$$\forall \phi [P(\phi) \supset \Diamond \exists x \phi(x)]$$
- D1 A *God-like* being possesses all positive properties:

$$G(x) \equiv \forall \phi [P(\phi) \supset \phi(x)]$$
- A3 The property of being God-like is positive: $P(G)$
- C Possibly, God exists: $\Diamond \exists x G(x)$
- A4 Positive properties are necessarily positive:

$$\forall \phi [P(\phi) \supset \Box P(\phi)]$$
- D2 An *essence* of an individual is a property possessed by it and necessarily implying any of its properties:

$$\phi \text{ ess. } x \equiv \phi(x) \wedge \forall \psi (\psi(x) \supset \Box \forall y (\phi(y) \supset \psi(y)))$$
- T2 Being God-like is an essence of any God-like being:

$$\forall x [G(x) \supset G \text{ ess. } x]$$
- D3 *Necessary existence* of an individ. is the necessary exemplification of all its essences: $NE(x) \equiv \forall \phi [\phi \text{ ess. } x \supset \Box \exists y \phi(y)]$
- A5 Necessary existence is a positive property: $P(NE)$
- T3 Necessarily, God exists: $\Box \exists x G(x)$

Benzmüller-Scott-Gödel

X

A Victorious Gödelian Variant?

Intelligently extracted from Gödel/Benzmüller's A1; F1a from Oppy.

$$\forall R(Pos(R) \rightarrow \neg Pos(\bar{R}))$$

Gödel/Benzmüller's A2; F2 from Oppy.

$$\forall R, R'[Pos(R) \wedge \Box \forall x(R(x) \rightarrow R'(x))] \rightarrow Pos(R')]$$

$$Pos(NE)$$

$$\forall R[Pos!(R) \leftrightarrow Pos(ER)]$$

Theorem 5 — welcome-weak? — from Oppy:

$$\forall R[Pos!(R) \rightarrow \Box \exists x ER(x)]$$

Variant: *Positive to Great-making*

Intelligently extracted from Gödel/Benzmüller's A1; F1a from Oppy.

$$\forall R(GM(R) \rightarrow \neg GM(\bar{R}))$$

Gödel/Benzmüller's A2; F2 from Oppy.

$$\forall R, R'[GM(R) \wedge \Box \forall x(R(x) \rightarrow R'(x))] \rightarrow GM(R')]$$

$$GM(NE)$$

$$\forall R[GM!(R) \leftrightarrow GM(ER)]$$

Theorem 5 from Oppy:

$$\forall R[GM!(R) \rightarrow \Box \exists x GM(x)]$$

Argument for God's Existence From AI

<http://kryten.mm.rpi.edu/TheArgGodExistsFromAI.pdf>

AI & God: AI is Idolatry

AI & God: AI is Idolatry

AI & God: AI is Idolatry

Goal: Establish that ...

Goal: Establish that ...

AI is idolatry.

Goal: Establish that ...

Goal: Establish that ...

AI is a *type* of idolatry.
